Order of Battle.

1. Reports received between 1 December 1951 and 1 January 1952 indicated no changes in the general disposition of the Soviet ground forces in Germany up to mid-December.
2. The following units in the Soviet Zone of Germany, with their location and date of observation, were confirmed between 1 December 1951 and 1 January 1952:

a. CHQ Units of the Group of Occupation Forces Germany (GCG)

56th Motor Trans Regt	MUNSTERDORF	28 November
An Arty Div	POTSDAM	4 December
32d (?) AAA Div	FRANKFURT/ Oder- KUNSTREIN	19 November
36th Pon Bridge Regt	MAGDEBURG	21 November

50X1-HUM

b. Eighth Guards Army.

43d (Gds) Army Arty Brig	ALTENBURG	9 October
An AT Arty Brig of the XXVIII Gds Rifle Corps	RUDOLSTADT (2)	12 December

Movements.

3. The regrouping of units within the Soviet Zone of Germany which began upon the return of the units from troop training grounds and fall maneuvers continued in December 1951. The new picture of the OB situation has not been fully determined to date. Specifically, the following movements have been determined in addition to those outlined in the last monthly OB report. *

SECRET

SECRET

4

50X1-HUM

a. GFG.

The 36th Pan Bridge Regt [redacted] was confirmed in the Seeckt Kaserne, MAGDEBURG [redacted] 50X1-HUM
Some components of the regiment may also be quartered in the former Flak Kaserne there.

b. First Gds Mecz Army and Eighth Gds Army.

The observation of vehicles of the 69th Gds Mecz Regt of the 21st Gds Mecz Div in HALLE may indicate that the regiment was transferred to HALLE from LEIPZIG-SCHOENAU where it had been stationed up to the fall of 1951. The regiment probably moved into the Reil Kaserne from where components of the 118th (?) Gds Regt were apparently withdrawn to the AUTERBACH area, Vogtland, in September 1951. Reports of November and early December 1951 indicated that the headquarters units of the XXVIII Gds Mtz Rifle Corps were transferred from GERA and ZEITZ to RUDOLSTADT and SAALFELD. However, the movement of the corps headquarters from GERA has not been confirmed to date. The identity of the units that moved into the vacated quarters in GERA, and the whereabouts of the components of the 39th Gds Mtz Rifle Div from RUDOLSTADT and SAALFELD have not been determined. But there seems to be no doubt that the components of the 39th Gds Mtz Rifle Div were reassigned to the OHRDRUF area. The movement of the Hq Eighth Gds Army with headquarters units from the city of WEIMAR to NOHRA airfield in late September and early October 1951 necessitated the movement of the unidentified mortar regiment of the 20th Gds Mecz Div from NOHRA to the Tannenberg Kaserne, WEIMAR. The regiment has been confirmed in its new billeting area. The reasons for the reassignment of posts in the areas of the First Gds Mecz Army and the Eighth Gds Army have not been determined to date.

c. Third Shock Army.

Two engineer units and one artillery unit from the Hindenburg Kaserne in SCHWABIN and GOMMERS airfield moved to HAGENOW during the second half of November. An artillery unit from the Fritsch Kaserne in SCHWABIN and elements of the Hq IX Mtz Rifle Corps from the Schlossgarten quarter moved to GOMMERS airfield. The units involved in the movements pertain either to the IX Mtz Rifle Corps and/or to the 94th Gds Mtz Rifle Div.

d. Third Gds Mecz Army.

The movement of the Hq Third Gds Mecz Army and army headquarters units from LUCKENWALDE to the MUMSDORF-ZOSSEN area began in mid-December 1951. The Stalags west of LUCKENWALDE were also vacated, but the present location of the army headquarters units from those camps has not been determined to date. Following the movement of the Hq Third Gds Mecz Army and the Hq IX Mtz Rifle Corps, all army and corps headquarters in the Soviet Zone of Germany are now being located in permanent barracks installations. The movements were probably effected in an effort to derequisition public buildings, such as hospitals, factories and schools, for civilian use.

Training.

4. After the general withdrawal of units from the troop training grounds in late October and early November 1951, record firing of units with heavy weapons continued at LUTZLING HEATH and the troop training grounds of TEMPLIN, WEISSWASSER, BERENDR-MALKENDORF and OHRDRUF in November and early December. This is in accordance with Soviet practice during the past years. The systematic training of the newly arrived recruits began at the military posts in December. Trained personnel were observed engaged primarily in fatigue duties.

SECRET

SECRET

5

50X1-HUM

Replacement of Personnel.

5. Under a program employing 4 shuttle trains from 3 October to early November and 18 shuttle trains after early November, the movements relative to the replacement of trained personnel by recruits ended about 10 December 1951. An analysis of reports on rail movements, specifying the numerical designation, direction of movement and load of the shuttle trains, indicated that there were 55 trains with recruits and 45 trains with discharges.

But it is believed that these figures should be increased by another 9 trains with recruits and 11 trains with discharges.

50X1-HUM

50X1-HUM

there is a fair degree of certainty that there were a total of about 64 trains with recruits and about 56 trains with discharges involved in the exchange program. Assuming that each shuttle train carried an average load of 1,200 men, a total of about 77,000 recruits arrived in the Soviet Zone of Germany and about 68,000 discharges left for the U.S.S.R. during the period from 3 October to 10 December 1951.

Vehicle

50X1-HUM

6. Vehicles of the Eighth Gds Army rear services were observed at the airfields of STRAUSBERG and WERNEUCHEN and in the streets of POTSDAM in mid-November 1951. No explanation for this has been found to date.

Transportation.

7. The operational situation of the Soviet Zone railroads, in spite of mild weather during the month under review, was rather critical. This situation is indicated by a daily backlog of more than 2,000 freight cars, an amount which is 300 to 400 percent above the normal level.
8. After reaching a low in November, coal stock piles increased in December. On 4 December 1951, total coal stocks amounted to approximately 275,000 metric tons, an amount which is adequate for about 12.3 days. Last year, coal stocks available on the corresponding day were adequate for 20 days. Beginning 5 December 1951, the daily coal consumption quota was fixed at 22,350 tons for the entire zone.
9. Raw material deliveries from the U.S.S.R. for industrial plants and foundry combines of the Soviet Zone of Germany continued to arrive via border crossing points on the Oder-Neisse line at an increased rate in December. Since 20 November 1951, crude oil deliveries from ZISTERSDORF in Austria through Czechoslovakia via BAD SCHANDAU for Soviet Zone hydrogenation plants have been considerably increased. This increased rate of crude oil shipments continued until 14 December 1951, and amounted to 73 to 75 railroad tank cars per day.
10. The improvement of the Soviet Zone railroad net was limited to the reconstruction of the second track between FRANKFURT/Oder and GUBEN. However, because of a shortage of rails, the completion date for this project, which had been fixed on 30 December 1951, was not met. Work on the double tracking of the bridge over the Oder River at KUBSTIN was started.
11. As of 31 October 1951, the following locomotives were available:

50X1-HUM

SECRET

SECRET

6

50X1-HUM

	<u>Serviceable</u>	<u>Under Repair</u>	<u>Damaged Locomotives</u>	<u>Total</u>
State-owned locomotives	3,190	1,623	690	5,503
including coal dust- fired locomotives	36	33	-	69
Column locomotives	308	62	-	370
Foreign locomotives	10	6	1,056	1,072
Narrow-gauge locomotives	154	56	6	216

12. It appears that the Soviets have resumed the former German project of extending the BERLIN-FRANKFURT/Oder autobahn beyond the Oder River toward the east. Since November, the terminal stretch of this autobahn south of FRANKFURT/Oder has been reconstructed. Preparations for the construction of a new bridge over the Oder River for this autobahn have also been made. Work on the replacement of the temporary wooden road bridge over the Oder River by a permanent structure is also under way.

Supply Situation.

13. Supply operations from the GDRG depots have continued to be decentralized to installations at army and military post level in December 1951. The influx of supplies from the U.S.S.R. totaled 1,215 railroad carloads which constitutes a substantial increase over the 869 carloads during the previous month. However, an average of one and a third trainload per day is still within moderate limits. With 687 carloads of ammunition and 162 carloads of tank hulls and spare parts during the reported month, the rate of incoming ammunition and tank spare parts has remained above average over previous months.
14. Because the Soviet Zone hydrogenation plants increased their output in 1951 and are geared to increase it still further in 1952, it is believed that the Soviet army, navy and air forces in the Soviet Zone of Germany will draw their fuel supply almost exclusively from the German production. As the estimated total military fuel consumption is 30,000 to 35,000 cubic meters per month, the fuel, about 1,200 cubic meters, which arrived in the Soviet Zone of Germany from the U.S.S.R. during the period covered by this report constituted only an insignificant percentage. The total monthly fuel requirements of the Soviet armed forces in the Soviet Zone of Germany approximates about 33 percent of the estimated total present production of the Soviet Zone hydrogenation plants.

AUSTRIA-HUNGARY.

General.

15. There were no discernible changes in the disposition of Soviet army forces in the Soviet Zone of Austria and in Hungary up to mid-December 1951.

50X1-HUM

Order of Battle.

16. Except for the 87th Gds Hv Tank SP Regt [redacted] of the 2d Gds Mecz Div, which was recently identified in SZOLNOK until 27 July 1951, the following regiments have been confirmed [redacted]:

50X1-HUM

Loitha River

KAGRAN 24 August 1951

50X1-HUM

ST. POELTEN 13 October 1950

Northwestern 6 March 1950
Hungary

Training.

17. Upon their return from the troop training grounds, the troops trained primarily in their billeting areas.

U.S.S.R.

18. [redacted] the Hq Fifth Gds Mecz Army, previously 50X1-HUM the Fifth Gds Tank Army [redacted] was stationed in BOBRUISK. Byelorussian MD, in August 1951. [redacted] components of two tank corps subordinate to the Fifth Gds Tank Army at the end of World War II were stationed in the 50X1-HUM Byelorussian MD. These components are the 178th Tank Brig of the X Tank Corps [redacted] which is the present 178th Tank Regt of the 10th Tank Div, in BORISOV in April 1951; and the 25th Tank Brig of the XXIX Tank 50X1-HUM Corps [redacted] which is the present 25th Tank Regt of the 29th Tank Div, in SLUTSK in September 1951. It is therefore fairly definite that 50X1-HUM the Hq Fifth Gds Mecz Army no longer controls the area of KOENIGSBERG, Baltic MD, but that the units stationed in the KOENIGSBERG-RIGA area are subordinate exclusively to the Hq Eleventh Gds Army.
